The Society was founded in 1954, its chief aim being the promotion of interest in the historic city of Vittoriosa, and the furtherance of the appreciation and study of its cultural heritage. During the early years of its existence a major interest of the society was the restoration and preservation of the city's historic sites which had been damaged during the war. It also took the initiative to commemorate the annual victory of the Great Siege until this started to be held by the Vittoriosa Local Council. Members from the Society have also taken the responsibility to serve as custodians of the Vittoriosa Parish Museum. The Society keeps close contact with the authorities for the better implementation of its objectives, particularly for the benefit of Vittoriosa. Throughout the year the Society organises various cultural and social activities for members.

*Membership is open to all and the annual subscription fee is:
EUR 3 single
EUR 5 couple*
